

# Adopt the word

-Olga Gonzalez Latapi

crave

coo at it on your palm

in this world of create

is that what the soft opposite of blank is

this soap bubble sphere of membrane

of membrane

where no one has ever encountered

of emptiness

of open

brick or wall or even stone

I do not like

this presence

why decide on concepts

where anybody else could grab it

inexistent like

and understand

wall.

did I bring it in by speaking,

beware the word

did I create the brick now around us
